

# Soil Testing

Soil Testing is available all year round. A person that is wishing to test their soil is responsible for gathering and sending the sample to a lab of their choice. Once the test is completed and paid for you can bring the receipt to the Lower Wind River Conservation District Office which is located at 625 E Madison Avenue Suite 1 to be reimbursed. The list of labs below are labs that people have used in the past but you are welcome to use a different lab.

## Previously used labs/ businesses:

Rocky Mountain Agronomy-  
Riverton, WY

Big Horn Co-op- Riverton, WY

Agvise Laboratories-  
Northwood, ND

Ward Laboratories- Kearney, NE

Stuckenholz- Twin Falls, ID

Colorado State University Ext-  
Fort Collins, CO
